On several different occasions, the Coverstar covers, both automatic and manual have been tested by independent testing laboratories and have always been found to be in compliance with all the ASTM requirements for safety covers. Our covers are also listed by UL (File E164833) and classified by UL as a power safety cover in accordance with ASTM F 1346-91

If you wish to verify either of the UL certifications, take the following steps:

Go to www.ul.com
Once there click on Search
Type in E164833 and hit enter
You should now see the listing under Latham Pool Products. If you have problems, you can also search by company or by Automatic Pool Covers

If more information is required about ASTM and its standards, you can go to their website at www.astm.org.

Shown below is the UL authorized label that is attached to the automatic cover system that we ship which shows both UL certification and compliance with ASTM F 1346-91. A label is also placed on the front of every cover stating that we meet the ASTM safety standards.
